New Forcing Hydrangea, "Hills of Snow"

HYDRANGAEA, ARBORESCENS GRANDIFLORA ALBA—This magnificent hardy American shrub is the very finest addition to this class of plants found in many a year. The blooms are of the very largest size, of pure snow-white color, and the foliage is finely finished, lacking entirely the coarseness found in *H. paniculata grandiflora*. One of its most valuable characteristics is its coming into bloom just after the passing of all the early spring shrubs, while its long season of bloom, from early June through August, renders it doubly valuable, not only to florists, but to every owner of a garden; perfectly hardy, standing 20 degrees below zero. The form of the panicle is much like that of *Hyd. hortensia*; the habit of the plant is excellent; it is bound to become the most widely grown and the most useful of all the *Hydrangeas*, and the most valuable shrub found in the American garden, and florists are learning its value both indoors and out; for summer weddings, for sprays, and for made-up work it is indispensable, for it is pure white and of very dainty finish. Nice, young, well-established stock from 2¼-inch pots, 40 cents per dozen; \$3.00 per 100; \$25.00 per 1000. Field-grown stock, 10 to 12 inches, 3 to 5 branches, \$1.00 per dozen; \$8.00 per 100; 1 to 3 branches, same size, 80 cents per dozen; \$7.00 per 100. 12 to 15 inches, 3 to 5 branches, \$1.50 per dozen, \$10.00 per 100; 1 to 3 branches, same size, \$1.00 per dozen; \$8.00 per 100. 18 to 24 inches, 3 to 5 branches, \$1.75 per dozen; \$12.00 per 100; 1 to 3 branches, same size, \$1.50 per dozen; \$10.00 per 100.
